

T1 Series Round Pad Attachments

ANVER Round Vacuum Cups and Vacuum Pad Attachments are among the most versatile and economic pad attachments available. When used with an ANVER VT or VB Ergonomic Vacuum Lifting System, our round vacuum cups can make the handling of pails and drums an effortless task. A large array of vacuum cup sizes, mounting styles and seal types make these vacuum pads suitable for virtually any lifting and handling application.

Features:

- Rugged construction
- A large assortment of mounting styles allow for easy attachment to any system
- Cleated bottom eliminates puckering or slipping
- Available in both neoprene and silicone for long life and maximum flexibility
- Quick-Disconnect Mounting is Standard; Thru-Bolt and Clevis Mount also available. Consult Factory.
